What is the ACCUPLACER test?

ACCUPLACER is a suite of computer-adaptive tests to assess college readiness in Reading, Writing, and Math. The admissions office or records will determine if you are required to take all or just certain areas of the ACCUPLACER test. The results of the assessment, in conjunction with your academic background, will determine your admission to the school and your skill level in Math and English.

You may be tested in the following areas:

- **Quantitative Reasoning, Algebra, and Statistics:** This 20 question test will focus on computing with rational numbers, applying ratios & proportional reasoning, creating linear expressions & equations, graphing & applying linear equations, understanding probability & set notation, and interpreting graphical displays. Personal calculators are not allowed. A built-in calculator will be available for certain questions. Scratch paper & pencils will be provided.. There is no time limit.
- **Reading:** Through Reading passages, knowledge & skills are assessed in Information & Ideas, Rhetoric, Synthesis, & Vocabulary. There are 20 questions. There is no time limit.
- **WritePlacer:** One prompt will be given to write a 60 minute essay. Your score is based on your ability to express, organize, and support your opinions and ideas.

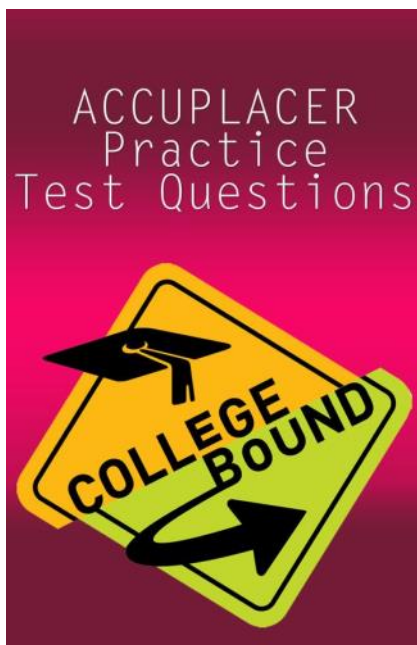

How do I prepare for the ACCUPLACER?

It is in your best interest to prepare for this test. **ACCUPLACER** has many tools and resources and even a **free** Study App.
